

HONOR 伺服传动电脑高速卷筒纸分切机

High Speed Ac Servo Rotary Knife Fully Automatic Paper Cutting Machine

使用范围及特点

本机适用于各种纸类、纸塑复合类、彩印复合类等大型卷筒包装材料的裁切。广泛应用于纸品加工业、印刷包装行业等。

1. 随着纸品加工业和印刷工业的不断发展和竞争，滚筒切纸机械已是纸品加工业及印刷工业不可缺少的配备之一。
2. 采用欧美及日本等电子零配件，最大限度地应用电脑控制及机械双结合的技术使机械操作简单，维修方便，更确保机械在高速运行情况下保持精确度及机械的稳定。
3. 深受各国纸品加工业及印刷行业用户的广泛采用。

主要技术参数 Performance And Characteristics

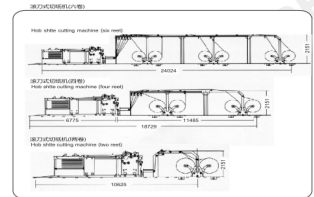

型号	Model	HONOR-1400	HONOR-1700	HONOR-1900
切断精度	Accuracy of cutting	±0.5mm	±0.5mm	±0.5mm
最高切断速度	Max. speed	300m/min	300m/min	300m/min
切断长度范围	Length range of cutting	450-1450mm	450-1450mm	450-1450mm
最高切纸宽度	Max. width of cutting	1400mm	1700mm	1900mm
最大纸卷直径	Max. diameter of material	1600mm	1600mm	1600mm
最高切纸厚度	Max. thickness of cutting	550g/m	550g/m	550g/m
机台重量	Weight	13000kg	15000kg	17000kg
堆纸高度	Height of paper-piling	1400mm	1400mm	1400mm
适用电源	Power supply	AC380V/220V×50Hz	AC380V/220V×50Hz	AC380V/220V×50Hz
外型尺寸	Overall dimension(L×W×H)	11500×4000×2200	11500×4300×2200	11500×4500×2200
总功率	Total power	22kw	25kw	28kw

PERFORMANCE AND CHARACTERISTICS

This machine is suitable for cutting the large coil packaging material, such as the paper, paper plastic complex material and color printing complex material, etc. This machine is widely used for application in the industries of paper processing and printing packaging.

1. With development and competition of paper products process industry and printing industry, rolling paper cutting machine has become one of the indispensable equipments in paper products process industry and printing industry.
2. Some spare parts like electric are made in Europe, America and Japan, etc. Making such machine become much simple operation, convenience repair with the techniques of both computer well controlling and machine be combined, even more, it ensure keeping of precision and steady of machine when running with high speed.

3. It is widely adopted in paper products process industry and printing industry by users.
